the last half century has been a defining period for the development of political science in europe disciplinary norms have become institutionalized in professional organizations training units and research centres the scholarly community has dramatically grown in size across the continent the analytical and methodological tools of the discipline are increasingly sophisticated and the knowledge disseminated under the label political science is bigger than it has ever been political science in europe takes stock of these developments and reflects on the achievements of the discipline and the challenges it faces is there a distinctive european blend of political science is the european political science community cohesive and inclusive how does the discipline cope with the neoliberalisation of academia and the diffusion of illiberal politics leading and up and coming political scientists answer these questions by discussing the discipline s key concepts and intellectual trends its professional structures and its relationship with its social economic and political environment

digitalization is not only a new research subject for political science but a transformative force for the discipline in terms of teaching and learning as well as research methods and publishing this volume provides the first account of the influence of digitalization on the discipline of political science including contributions from 20 different countries it presents a regional stocktaking of the challenges and opportunities of digitalization in most world regions

organized topically this text offers a concise introduction to political science it uses extended examples of appropriate countries and has a strong underlying theme the contrasting

purpose of political institutions as a means to acquire power versus their use as a means of public choice

winner of the 2015 award for concept analysis in political science american political science has been widely but loosely identified as a liberal science robert adcock clarifies the place of american political science within the liberal tradition by situating its origins in relation to the transatlantic history of liberalism the pioneers of american political science participated in transatlantic networks of intellectual and political elites that connected them directly to the evolution of liberalism in europe this book shows how these figures adapted multiple european liberal arguments to speak to particular challenges of mass democratic politics and large scale industry as they developed in america political science s pioneers in the american academy were thus active agents of the americanization of liberalism in charting the emergence of american political science adcock shows how a distinct current of mid nineteenth century european liberalism was transformed into two alternative twentieth century american liberalisms when political science first secured a niche in america s antebellum academy it advanced a democratized classical liberal vision that overlapped with the contemporary european liberalism of tocqueville and john stuart mill as political science expanded during the dramatic growth of universities in the gilded age controversy and cleavage within liberalism came to the fore in the area of political economy during the late nineteenth century this cleavage was fleshed out into the alternative analyses of democracy and the administrative state advanced by two divergent liberal political visions progressive liberalism and disenchanted classical liberalism both visions found expression among the early leaders of the new american political science association founded in 1903 and in turn within the fierce contest over the meaning of liberalism as this term entered american political discourse from the mid 1910s on the history of american political science allows us to see how a distinct current of mid nineteenth century european liberalism was transformed into alternative twentieth century american liberalisms
